9 Jan. 1951

REQUIREMENT RR/HTA/E/SI/57: Locate and describe the petroleum storage facilities in Sui-fen-ho, Manchuria.

REMARKS:

The petroleum storage area in Sui-fen-ho is located 700 yards northwest of the railroad station and 330 yards north of the power plant. In this area are ten small 15-20 feet diameter, vertical storage tanks.

Adjoining the tanks in an enclosed area, 620'x 620', are 100-150 indistinct objects which may possibly be the small partially-buried petroleum storage tanks reported to be in this locality. The small scale and poor resolution of this photography precludes a more detailed analysis of this installation.
